Passage 1

KidZania is a nation just for kids. In other words, it is an educational and entertainment family theme park that allows children to role-play adult activities in a replica city with a functioning economy. At KidZania, children can enjoy playing the role of a number of careers, including a journalist, teacher, flight attendant, pilot, doctor, singer, and banker.

And of course, when they work, they earn. This edutainment nation has an official currency called KidZos. If children choose to work as a journalist, for example, they will be given a training session before going out from their
news station to cover newsworthy events that happen within KidZania. Then they come back to write a story which will be published in the replica city’s newspaper. Similarly, if they choose to be a flight attendant, a technician, a nurse or any other job, they will be provided with on-the-job training before being allowed to work in their respective roles.

3. The KidZos they earn can be spent on goods and services in the city. And if kids earn a lot, they can save their “money” and earn interest in the KidZania bank. ATM machines are available in the center for them to make withdrawals from their bank accounts. By this means, children learn the value of money. They are prepared for the real world and realize that if they want to have something, they have to work hard for it.

31. What is the purpose of this passage?

1. To explain what KidZania is and how it works
2. To tell children about KidZania’s activities
3. To criticize KidZania’s role in training children
4. To describe entertainment in KidZania

32. What is KidZania?

1. A country where children are the permanent residents
2. A place where children can enjoy learning about economics
3. A theme park where parents can become children again
4. A place where all careers are for entertainment only
33. What is NOT possible for children to do in KidZania?
   1. Publish news stories
   2. Earn KidZos
   3. Get job training
   4. Become parents

34. Which of the following is closest in meaning to “interest” (paragraph 3)?
   1. Additional money gained from savings
   2. Attention paid to something
   3. A reward for hard work
   4. Excitement from activities

35. What does “this means” (paragraph 3) refer to?
   1. Being trained for a specific job in KidZania
   2. Providing services in KidZania
   3. Earning and managing KidZos
   4. Exchanging KidZos for real currency

**Passage 2**

1. As a preschooler, Amanda Sprague would cling to her mum or dad around new people, slept with the bedroom door wide open and the hall light on, and was **skittish about** bugs. To her parents this didn’t seem all that unusual for her age. But when she started school, Amanda’s worries multiplied and intensified, says Laurie, her mother. She would cower in bed, paralyzed with fear.
during a thunderstorm. When she spotted two ladybugs on the ceiling, she ran screaming from her bedroom and refused to go to sleep.

Food was also a major source of anxiety for Amanda, and she constantly worried about choking. When she was eight, she suddenly stopped eating completely. “She said she couldn’t swallow and thought something was stuck in her throat,” says her mother. “Our doctor ruled out a throat infection and X-rays showed nothing was medically wrong with her.”

Days later Amanda developed a morbid fear of dying. She cried at bedtime and thought her heart was beating too fast. Admitted to hospital, she was diagnosed with generalized anxiety disorder. She was so anxious that her throat had constricted, making swallowing impossible.

Amanda’s case is extreme, but it represents the tip of a serious problem facing youngsters today. Experts suggest that thousands of children experience anxiety disorders such as this. Many more struggle with anxiety problems—the mid-range anxiety that is above normal but not extreme.

Children often suffer on their own because they don’t recognize that they have a problem, don’t understand what’s happening to them or can’t explain their feelings. Parents might overlook or minimize their child’s problem. Or they might have trouble interpreting the signs—children can express anxiety in many ways, from extreme shyness to irritability or even defiance.
36. What is the passage mainly about?
   1. Amanda’s health  
   2. Preschoolers’ problems  
   3. Childhood anxiety disorder  
   4. Children’s unusual behaviors

37. Which phrase is closest in meaning to “skittish about” (paragraph 1)?
   1. Frightened by  
   2. Attracted to  
   3. Obsessed with  
   4. Opposed to

38. Which is NOT mentioned in the passage as being affected by Amanda’s symptoms of anxiety?
   1. Her personality  
   2. Her mental health  
   3. Her physical health  
   4. Her performance in school

39. Which word is closest in meaning to “constricted” (paragraph 3)?
   1. Become tighter  
   2. Become wider  
   3. Become infected  
   4. Become dry

40. What can be inferred from the passage?
   1. Fear does not affect adults.  
   2. Fear causes many symptoms.  
   3. Anxiety prevents children from growing.  
   4. Anxiety can be easily prevented.
Passage 3

1 Ferns were once thought to be magical plants. That's because they bear neither flowers nor fruit nor seeds, yet a new plant emerges, seemingly out of nowhere. We now know that ferns grow from spores, but there was a time when it was believed they did bear flowers. According to a legend, ferns bore flowers before the birth of Christ. When Jesus Christ was born, the plants around his birthplace burst into bloom in celebration, with the exception of the ferns. For this failure, ferns were condemned to a flowerless state from that day on.

2 According to another legend, ferns flowered only at night. The flowers which were said to be of beautiful blue color, opened very quickly and just as quickly faded, which was why no one ever saw them. The flowers were then replaced by golden seeds that ripened by midnight, but as no one had ever seen a fern seed, it was thought that they were invisible, like the flowers.

3 It was believed that possession of the invisible seeds would also make one invisible. Consequently, many devious plans were devised to secure the valuable fern seed. One plan involved 12 pewter plates stacked on top of one other and held under the fern plant at midnight on St John's Eve (June 24), the only time the invisible seeds would ripen and fall from the plant.

4 According to the legend, the falling seeds would pass right through the first 11 plates before landing on the 12th. Only then could they be obtained—if one was careful enough. More often than not, however, the slightest gust of wind would blow them away, so if the collector did not become invisible afterwards, he would know he had failed to secure the invisible seeds.
5. As late as the 1800s, some scientists insisted that ferns must have flowers and seeds like any other plant. It was only later that they realized ferns propagated by spores, which differ from seeds in that they consist of a single cell. Seeds, on the other hand, consist of many cells and contain young underdeveloped plants. It is almost magical how a tiny seed can grow into a huge tree. But it seems there are plants that are more magical than others.

41. What is the main idea of this passage?
   1. Ferns are not magical plants, but they grow from spores.
   2. Despite tireless effort to secure fern seeds, they remain invisible.
   3. Fern flowers and seeds were condemned when Jesus was born.
   4. Fern flowers yield spores and then quickly fade by midnight.

42. Which of the following is TRUE about fern flowers?
   1. They bloom a beautiful blue color.
   2. They are replaced by golden seeds at midnight.
   3. They can be seen with the naked eye.
   4. Ferns do not produce flowers.

43. According to a legend, which of the following is NOT true about fern seeds?
   1. Nobody has ever seen or possessed them.
   2. They disappear quickly by midnight.
   3. They can only be secured on Christmas Eve.
   4. A gust of wind can easily blow them away.
44. What does "they" (paragraph 4) refer to?
   1. The devious plans to secure fern seeds
   2. The plates used to collect the fern seeds
   3. The falling invisible fern seeds
   4. The fern flowers that produce invisible seeds

45. Which word is closest in meaning to "propagated" (paragraph 5)?
